When registering every child, make sure you register as a parent first, and when that is complete, then “ADD” your Junior players, one at a time, making sure you complete all the information.

Once you have completed the initial adding of their name, you will see in your profile box a message appearing that says please complete additional membership information.

Please do this for each child before moving on to the next one.

NB: We cannot accept Players at training or select for matches unless all membership information is complete, and where relevant, subs paid.

NB: Please do not enter an adult team for your children, just the junior team (the club will assign to the relevant adult team as and when they are selected).

If you are under 18 years of age on 31st August 2020 you must register as a junior player.
